

S2 Mathematics: Circle Theorems and Properties

Competency: Geometry Circles Polygons and Constructions | Difficulty: Intermediate | Duration: 55 min | Material #17

Learning Overview

Proves and applies circle theorems including tangent, chord, angle at centre and cyclic quadrilateral theorems.

Learning Objectives

- Understand the core concepts of Geometry Circles Polygons and Constructions.
- Apply learned techniques to solve related problems.
- Connect this topic to real-world Rwandan contexts.
- Build mastery toward Mathematics Grade S2 proficiency.
- Prepare for competency assessments and national exams.

Study Notes

Use this space to write key concepts, formulas, and worked examples.
