

# S3 Mathematics: Exponential Growth and Decay

Competency: Logarithmic and Exponential Functions | Difficulty: Advanced | Duration: 50 min | Material #26

## Learning Overview

Models exponential growth and decay using logarithmic equations and graphs in real-world contexts.

### Learning Objectives

- Understand the core concepts of Logarithmic and Exponential Functions.
- Apply learned techniques to solve related problems.
- Connect this topic to real-world Rwandan contexts.
- Build mastery toward Mathematics Grade S3 proficiency.
- Prepare for competency assessments and national exams.

### Study Notes

Use this space to write key concepts, formulas, and worked examples.
