

S1 Physics: Conservation of Energy and Efficiency

Competency: Energy Forms and Conservation | Difficulty: Intermediate | Duration: 40 min | Material #38

Learning Overview

Applies the law of conservation of energy to mechanical and thermal systems and calculates efficiency.

Learning Objectives

- Understand the core concepts of Energy Forms and Conservation.
- Apply learned techniques to solve related problems.
- Connect this topic to real-world Rwandan contexts.
- Build mastery toward Physics Grade S1 proficiency.
- Prepare for competency assessments and national exams.

Study Notes

Use this space to write key concepts, formulas, and worked examples.
