

S1 Physics: Forms of Energy and Transformation

Competency: Energy Forms and Conservation | Difficulty: Beginner | Duration: 45 min | Material #37

Learning Overview

Identifies kinetic, potential, chemical, electrical and thermal forms of energy and their interconversions.

Learning Objectives

- Understand the core concepts of Energy Forms and Conservation.
- Apply learned techniques to solve related problems.
- Connect this topic to real-world Rwandan contexts.
- Build mastery toward Physics Grade S1 proficiency.
- Prepare for competency assessments and national exams.

Study Notes

Use this space to write key concepts, formulas, and worked examples.
