

S2 Physics: Sound Waves and the Doppler Effect

Competency: Wave Properties Sound and Light | Difficulty: Advanced | Duration: 50 min | Material #48

Learning Overview

Analyses longitudinal sound waves, resonance conditions and the Doppler effect for moving sources.

Learning Objectives

- Understand the core concepts of Wave Properties Sound and Light.
- Apply learned techniques to solve related problems.
- Connect this topic to real-world Rwandan contexts.
- Build mastery toward Physics Grade S2 proficiency.
- Prepare for competency assessments and national exams.

Study Notes

Use this space to write key concepts, formulas, and worked examples.
