

S3 Physics: Motors and Generators

Competency: Electromagnetic Induction | Difficulty: Advanced | Duration: 50 min | Material #59

Learning Overview

Describes the structure and operating principles of DC motors, AC generators and their efficiency.

Learning Objectives

- Understand the core concepts of Electromagnetic Induction.
- Apply learned techniques to solve related problems.
- Connect this topic to real-world Rwandan contexts.
- Build mastery toward Physics Grade S3 proficiency.
- Prepare for competency assessments and national exams.

Study Notes

Use this space to write key concepts, formulas, and worked examples.
