

S3 Physics: Wave Optics, Interference and Diffraction

Competency: Optics Interference and Diffraction | Difficulty: Advanced | Duration: 55 min | Material #60

Learning Overview

Investigates wave superposition, Young's double-slit interference pattern and diffraction gratings.

Learning Objectives

- Understand the core concepts of Optics Interference and Diffraction.
- Apply learned techniques to solve related problems.
- Connect this topic to real-world Rwandan contexts.
- Build mastery toward Physics Grade S3 proficiency.
- Prepare for competency assessments and national exams.

Study Notes

Use this space to write key concepts, formulas, and worked examples.
